

# Preface

**LOHITH FUNFIT INDIA PVT. LTD** : our company(Lohith Funfit India) has been in business(outdoor & gym equipment) for the past 3 years, we have been an established and popular company with an excellent track record for the best customer satisfaction. we have never compromised on the quality and the services provided to the customer.

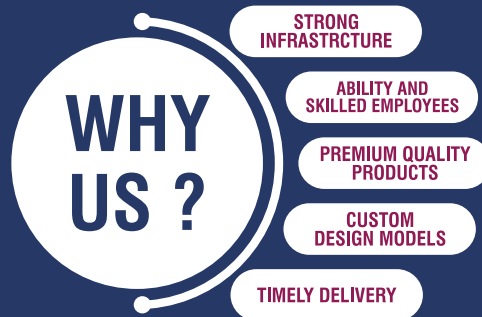

We Are Outdoor Playground Equipment Manufactures & Suppliers. We Also Produce Outdoor Fitness Equipment And Provide Solutions For Safety Flooring Requirements. Our outdoor gym & playground equipment are used by young & old. We earned iso 9001:2015 & ce certification to create a quality management system to ensure customer satisfaction.

Child Safety Is Our Biggest Driving Force. We Have Put In Years Of Research To Understand What Really Appeals To And Engages Every Child.

**BENEFITS** : Increases Enthusiasm. Equipping Our Gym With New Training Equipment Is The First Step To Getting People Excited About Working Out. Reduces Cardiovascular Disease Risk, Build Lean Muscle And Aerobic Fitness. Boosts Overall Mood And Well Being. Sparks Lifelong Habits, Reduces Stress, Reduce Future Risk Of Chronic Disease. Improves Collaboration And Community Health.

## Company Profile

• ESTABLISHMENT IN YEAR	-	2016
• FACTORY AREA	-	80000 SFT
• EMPLOYEE NUMBER	-	45
• TURNOVER	-	2CR
• CERTIFICATION	-	7

## Special Features

**PLATFORMS**: our platforms are water proof they are also powder coated to prevent corrosion (rust).

**SS SPARES** : Ceiling with Stainless steel (SS-304) FOOTS & CAPS to prevent from rust and water. Hence it is not effect to bearings.

**PIPE MATERIAL** : Using Main pipe JINDAL 'C' class pipes and thickness of 4.5 MM.

**SHOT BLASTING** : Shot blasting can eradicate rust, paint, residue from corrosion from materials spontaneously and effectively. It can also be used to alter the condition of metal's surface, such as through eliminating scratches or casting marks. This process is best suited for metal surfaces, to prevent moisture buildup and avoid water intrusion in the surface. Remove surface dirt and stains and to give the surface a uniform appearance.

**POWDER COATING** : Powder Coating Had Many Advantages, The Main One Being That In One Pass The Operator Could Apply 60-80 Microns Of Powder. Powder Coating Is The Application Of A Dry Powder Containing All Of The Ingredients Of Paint To Metal Components In One Step.

**WE LOOK FORWARD TO A WONDERFUL RELATIONSHIP TOGETHER AND SUCCESS FOR ALL CONCERNED.**

*Play today  
for a better  
tomorrow*

**HEADING OUTDOORS BOOSTS YOUR MOOD,  
IMPROVES YOUR HEALTH AND  
SAVES YOU MONEY ON GYM FEES.**
